Semana 32

chapter 8

Heal the world

What you are going to see

- Present simple vs present continuous
- Recycling vocabulary

Nossas ações cotidianas têm grande impacto no meio ambiente, mas cabe a nós decidir se ele será positivo ou negativo. Com seus colegas, analise a imagem acima e as ações das pessoas retratadas. Vocês já fizeram algo parecido? Qual é o resultado desse tipo de ação?

let's start!

Recycling

- 1 Name the material that goes into each trash can using the words below. Consider the Brazilian standard. Then, answer the questions. Finally, compare your answers with your classmates. Nomeie o material que vai em cada lata de lixo usando as palavras abaixo. Considere o padrão brasileiro. Depois, responda às perguntas. Por fim, compare suas respostas com as de seus colegas.

glass paper metal/cans plastic

- Are there trash cans like these where you study or live? Do you use them?
Existem lixeiras como essas onde você estuda ou mora? Você as utiliza?
- Do you and your family separate the trash? How?
Você e sua família separam o lixo? Como?
- Are there any recycling programs in your community? If so, how do they work?
Existem programas de reciclagem em sua comunidade? Caso existam, como eles funcionam?
- Carry out research about recycling around the world and share with your classmates: Which countries recycle the most? Which ones recycle the least? Which are the trash separation rules?
Faça uma pesquisa sobre reciclagem ao redor do mundo e compartilhe com seus colegas: Que países reciclam mais? Quais reciclam menos? Quais são as regras para separação do lixo?

trash can, garbage can (AmE.) = waste bin, dustbin, rubbish bin (BrE.)

AmE. = American English

BrE. = British English

2 What can and what can't be recycled? Circle the items we can recycle.
O que pode ou não ser reciclado? Circule os itens que podemos reciclar.

Save the planet

T Talk to your classmates about the questions below.

Converse com seus colegas sobre as perguntas abaixo.

- Which green actions can you see in the pictures?
- How important do you think they are to help healing or saving the planet?
- Which of them are part of your life? How often do you do them?
- What other green actions are part of your routine?

2 Read the tips and match the headings with the paragraphs.

Leia as dicas e associe os títulos aos parágrafos.

Use recycled paper for homework.

Turn off the water when you brush your teeth.

Set up a recycling bin.

Swap plastic water bottles for bamboo or aluminum.

[...] **Ways Kids Can Save the Planet** [...]

Drinking a bottle of water is one of the best things you can do for your health (go you!) but to keep the environment as healthy as you are, **ditch** the **disposable** bottles and pick a reusable one, Michaud says. For more **environment** points, pick one made from a renewable resource like bamboo. [...]

esbudo temlock, utillu andir
Mokurne

ditch: abandonar

disposable: descartável

environment: ambiente

First off: Good job brushing your teeth! That's super important for your health. But while you're brushing your pearly whites, don't forget to turn off the **faucet**, says Mina Gull, ultra marathoner [...]. You can save close to 3,000 gallons of water a year with this one tiny change! [...]

If your house doesn't already have one, **set up** a little recycling center to collect glass, paper, and plastic, Kandall says. It can be as simple as finding three empty boxes and putting a sign on each one. When they're full, your parents can take them to a recycling center, or your trash company may recycle them for you. [...]

3 Read the tips one more time and check if the sentences are true (T) or false (F).

Leia as dicas mais uma vez e verifique se as frases são verdadeiras ou falsas.

- a) () Disposable bottles are not good for the environment.
- b) () Reusable bottles are even greener when they're made of renewable materials.
- c) () Small daily actions don't make any difference.
- d) () It's important not only to recycle but also to use recycled items.

4 Find all the cognates in the text and write them here. Share with the class.

Encontre todos os cognatos no texto e escreva-os aqui. Compartilhe com a turma.

5 What are you doing to help the planet?

O que você está fazendo para ajudar o planeta?

- a) () I'm using the trash can correctly.
- b) () I'm turning off the faucet/tap.
- c) () I'm turning off the lights when I leave a room.
- d) () I'm riding my bike or walking to school.
- e) () I'm not wasting food.
